

American Bio-Clinical Laboratories

April 23, 2008

Online On-Demand Report Translation is Now Available!!

Now you can print your own translated laboratory reports directly from www.abclab.com.

Currently there are 4 available languages with more to come:

1. Chinese Traditional
2. Chinese Simplified
3. Spanish
4. Japanese

Please follow the following step-by-step instructions:

1. Login into Internet Reporting system by using your user name and access code.
2. From the Main Menu, you can search the patient either by utilizing the “**High Priority Items**” or by “**Patient Results Inquiry.**”
3. Once you have selected the patient, please move your mouse over “**Translate Report**” or “**Translate Selected**” button.
4. Click the to display available languages:
The default language will be highlighted. To select another language as default:
 - a. Choose your preferred language.
 - b. Check the “**Save selection as default.**”Click the Submit button to start the translation process and to save the preferred default language. The translation dynamic box can be closed by clicking the **Close** button.
5. Once the translation engine has completed the process, your web browser will display a PDF document that contains the translated report for you to print or to save to your local computer.
